

Misty Garden

Tommy Bahama[®]

OUTDOOR LIVING

Misty Garden

With graceful lines, a soft ivory finish and French botanical styling, outdoor designs in Misty Garden are elegantly crafted in cast aluminum, featuring the classic quatrefoil pattern with custom porcelain tops and intricate designs under glass.

The collection includes deep seating, large and small scale dining and a broad assortment of occasional tables and accent items. Custom porcelain tops have a natural marbled pattern in ivory and gold for a sophisticated designer look.

NOTE: Pillow fill is 100% all-weather fiber with water resistant ticking that is thermally sealed to prevent water penetration.

Your choice...no charge. Final Touches No Charge Options applies to all custom outdoor upholstery frames. When using a seat fabric in Grades F-G-H, contrasting fabrics and welts at the same grade or below are included in the base price. However, if the seat fabric is Grades A-B-C-D-E, contrasting fabrics and welts in F-G-H require an upcharge. See dealer for pricing.

THE FINEST MATERIALS

CAST ALUMINUM FRAMES

Tommy Bahama Outdoor Living frames are engineered for strength and built to last using endurance cast aluminum. Joints are precision-welded for strength and durability and then ground and polished by hand to ensure a smooth and seamless look.

CUSTOM FINISHES

Finishes on Tommy Bahama Outdoor Living products are specially formulated, with custom base coats and painstaking handwork, to achieve a unique look. Ultra-durable polyester resin powder-coated finishes are baked on cast aluminum frames, ensuring that they are colorfast and highly resistant to damaging UV rays. Finishes are also corrosion and scratch resistant. The element that sets these designs apart is meticulous handwork using techniques like dry brushing, padding and burnishing that result in a product that is virtually indistinguishable from fine interior home furnishings, yet built to endure the elements.

CUSTOM PORCELAIN TOPS

Certain pieces in the collection feature custom porcelain tops. These tops are highly weather and stain resistant. They should be cleaned periodically but do not require sealing. It is recommended that these tops be stored in a protected indoor area during periods of extreme cold, and handled with care as they may chip or crack if handled improperly.

PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today - and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A “performance fabric” is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on most fine indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious “crown” to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking with a Tommy Bahama watermark to verify its authenticity. This ticking is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
