PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today - and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A "performance fabric" is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on the finest indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious "crown" to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking that is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
